FRICTION SPARES

SUPPLYING THE MINING AND EARTHMOVING INDUSTRY SINCE 1998

ABOUT US

Industrial Brake has been supplying the mining, earthmoving and agricultural markets in Australia since 1998.

There have been many advances in friction materials over the years, from Sintered Bronze to Advanced Compact Carbons. We have moved with these changes to provide the most up to date friction materials available today. There are many manufacturers of brake and friction products, our vendors and manufacturers are among the best in their field, specially chosen as OEM to many of the largest mining equipment manufacturers in the world.

INDUSTRIAL BRAKE & FRICTION SUPPLY

HIGH QUALITY BRAKE & TRANSMISSION REPLACEMENT PARTS FOR
MINING & EARTHMOVING EQUIPMENT

WET FRICTION

DRY BRAKES

AUTOTEST PRODUCTS

We are distributors for AUTOTEST brake diagnostic products for the mining industry.

DUO CONE SEAL GROUPS

OE QUALITY SEALS

Duo cone seals (also known as floating seals or face seals) are mechanical seals used to keep the oil within your final drive, as well as keep damaging contamination outside.

These seals are comprised of two metal faces and two flexible toric rings that force those faces together so that they form a tight seal. The toric rings are made from a nitrile rubber or silicone material.

At Industrial Brake we only supply high quality ISO certified, quality assured Goetze and Duraseal floating seals.

Major OEM equipment manufacturers have, for many years, come to rely on Goetze to design and produce mechanical face seals best suited for their applications.

CATERPILLAR O-RING KIT - NITRILE 90 IRHD		
4C4782 (2701528)		
Assorted O-Ring Replacement Kit		
<i>Temperature Range -40°C to +120°C/-40°F to +248°F.</i>		
<i>Compatible with mineral based oils, greases, gasoline, lubricants and coolants.</i>		
<i>All sizes suitable for dynamic and static applications.</i>
